LICENSEE: Virginia Electric Power Company

FACILITIES: North Anna, Units 1 and 2
Surry, Units 1 and 2

SUBJECT: PUBLIC MEETING WITH VIRGINIA ELECTRIC POWER COMPANY, ON THE
LICENSE RENEWAL APPLICATION FOR NORTH ANNA, UNITS 1 AND 2,
AND SURRY, UNITS 1 AND 2

On June 27, 2001, the staff met with members of Virginia Electric Power Company (Dominion) in a public meeting, to discuss the license renewal applications for North Anna, Units 1 And 2 (NAS 1/2), and Surry, Units 1 And 2 (SPS 1/2). The list of attendees is attached. Also attached, is the meeting agenda and the two sets of handouts provided by the applicant during the meeting.

In addition to the information provided in the handouts, the following items were discussed during the meeting:

- NRC requests for additional information will be identified as NAS 1/2 specific, SPS 1/2 specific, or common to both NAS 1/2 and SPS 1/2.
- The applicant will inform the license renewal project manager of any licensing amendments that relate to any information associated with the FSAR Supplement provided with the license renewal application (LRA).
- The applicant informed the staff that the application of the 10 CFR 54.4(a)(2) scoping criteria is discussed in § 2.1.3.6 of the LRA.
- The applicant informed the staff that the application of the 10 CFR 54.4(a)(3) scoping criteria is discussed in § 2.1.3.7 of the LRA.
- The applicant informed the staff that there is no containment floor/wall joint sealant and joint aging is managed by standard inservice inspection activities.
- The applicant informed the staff that above ground storage tanks are evaluated in the mechanical systems sections of the LRA, not in the structural sections of the LRA.
- All related areas within the LRA are hyperlinked to one another, however, the discussion relating to the Containment in § 3.5.1 of the LRA is not hyperlinked to § 4.6 of the LRA. This was an administrative oversight.

A draft of this meeting summary was provided to the applicant to allow them the opportunity to comment prior to the summary being issued.
